Jack Etter, Superintendent
Thomas Cervola, Principal

Good Evening,

For our students and families please know you are missed. Soon we will be providing an email address where you can email any question you may have about this current health crisis. This is NOT a medical answer venue but more an opportunity to ask questions that we can direct you to where the support or answer will hopefully be. It will also be an opportunity to share suggestions for things you are doing that are safe and you have found useful.

Staff has been working all along to get meals ready for our Tuesday and Friday deliveries as well as our next delivery of learning packets if the closure should continue longer than March 31st. There have been some questions as to what to do with completed work and for now please keep it in a safe place and please in the order it was given out. If you did not respond to the technology survey and received a call today please respond so we may know the best way to share resources and communicate with our students and families.

Earlier I had emailed staff and I said how proud I am of our community and we will continue to support each other during this crisis and together we will succeed. Please reach out if we can help in any way and know that the school is working daily to make sure we help all students and staff during this crisis.

Jack Etter
Superintendent
Gilboa-Conesville Central School District
